Choose to **save money with our discount option**

Want to save some real money on your monthly contribution? We give you a way to do just that!

Elect - save BIG

To get a considerable amount off your monthly contribution, you pay a R15 470 co-payment on all planned hospital procedures at any private hospital. This doesn't apply to emergencies.

Choose how to pay **for your day-to-day savings**

Use it as a **hospital plan** only but with a **day-to-day back-up savings plan**

If you want to keep your contributions as low as possible while ensuring complete peace of mind should you be admitted to hospital, the flexiFED **hospital plan** is perfect for you. However, you can also access a day-to-day back-up savings plan in case you need it. **Simply use the Fedhealth Savings** you need - that's all you will have to pay for - interest-free over 12 months.

The amounts below* are how much **Fedhealth Savings** you have available based on your option and family composition. The amount you activate will be divided by 12 and added to your hospital plan contribution.

What makes our hospital plans special?

Because unlike other hospital plans that only pay for hospital related expenses, our flexiFED plans go further by covering members for a range of day-to-day benefits as well. These include all our unique benefits and certain plans offer even more built in day-to-day benefits for things like optometry, maternity, childhood benefits and mental health... all at no additional cost to the member.
